

Year 2 News - Friday 27th November 2025

Notice board

Reminders

- Make sure the children bring in fresh water (no juice) every day. It is very important to stay hydrated throughout the day.
- Please ensure that you read with your child daily and record in the blue record book. This will enable your child's reading fluency to improve and it nurtures their love of reading.
- With our first show fast approaching can we please remind you to send your child's costume in, in a named carrier bag, as soon as possible? This is only for those children who have had a letter sent home regarding costumes. Please continue to help your child learn/remember their lines and encourage them to project their voice.
- **Reminder : Friday 28th November is an Occasional day and the school is closed.**

Show and Tell

For Show and Tell these last couple of weeks we would love to receive a photo of your Christmas tree in our inboxes. Your child can then tell us all about the tree and your family's Christmas traditions.

English

In English next week we will explore the features of formal and non-formal letter writing and children will write their very own letter to Santa.

We will also continue to work on comprehension skills.

Topic

In Topic next week we will be drawing a still life using every day objects. We will use pastels to shade and create texture. We will also be focusing on our Music skills and learning to use our voices as instruments.

Word of the week: **yodelling.**

Maths

Next week we will be exploring subtraction of two digit numbers. We will use different methods such as using bead strings and part whole models. We will also be looking at how to do calculations with missing numbers.

Word of the Week:
subtraction

Home Learning Tasks

Maths challenges: the children can practise rounding to the nearest 10 on Topmarks:

www.topmarks.co.uk/maths-games/rocket-rounding Start with the first game: up to 99 to the nearest 10. If your child is confident at this level, they can be challenged with the next level up: up to 999 to the nearest 10. The number line with each rocket makes rounding to the nearest 10 very clear to the children. Please support your child where needed.

Reading: to keep reading fun, maybe you could challenge your child to do one of the following?

1. Build a den and read your book inside it.
2. Wrap on warm and read a book outside!
3. Read a book to your brother, sister, cat, dog, friend or teddy.

Ask someone to make a photo of you completing a reading challenge and email it to your class teacher! We'd love to share it in class and with Mrs Brooker, our English subject lead.
