

Notice Board

The children loved our end of topic celebration to celebrate our topic 'will you read me a story'. Thank you all so much for coming and helping them plant their bean plant! We have sent home P.E kits to be washed, please can these be returned the Monday we come back. Thank you.
We would also like to say thank you for your continued support, we hope you have a lovely Easter!

Understanding of the World

We will be introducing our new topic 'Why do ladybirds have spots?' The children will be finding out about minibeasts and will go on a bug hunt in the conservation area.

Expressive Arts and Design

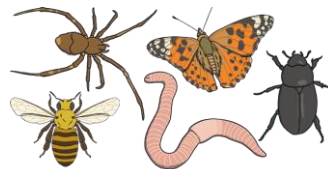

The children will have the opportunity to access topic related activities on the craft shelf.

Maths

Next week, the children will use practical contexts to sort objects according to different criteria. They will be encouraged to notice different attributes in groups of objects- such as colour, size or function. Sorting and classifying are important skills that encourage children to identify similarities and differences, and support problem solving and the development of data analysis.

Why do ladybirds have spots?

Literacy

The children will begin learning different facts about lots of different mini beasts. They will have the opportunity to meet some of the mini beasts they learn about in our mini beast workshop!

Montessori

This week's skill is from Practical life. The Dressing Frames primary purpose is to teach children how to dress themselves through mastering different clothing fasteners. This process also tests a child's hand eye coordination and fine motor skills, as they work with each material.
