

Notice Board

- We are making junk model rockets next week - if you have any (clean) recycling at home, it would be much appreciated! Thank you.

hhomer@fandb.herts.sch.uk

RWI

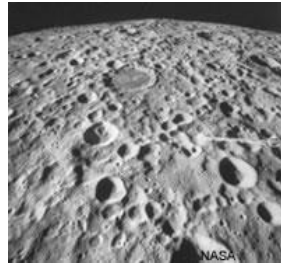

We will be reviewing some of the sounds we have previously learnt but need a bit more practice with.

We will continue practising blending sounds into words using 'Fred Talk'.

Once the children have mastered 1) recognising all the individual sounds and 2) orally blending sounds into words, they will be ready to begin reading simple CVC words.

Understanding of the World

Our focus will be space next week. We will be learning about the moon, the sun and meeting the planets. We will also be taking part in a Science experiment to learn about the craters on the moon.

Expressive Arts and Design

The children will have the opportunity to access topic related activities on the easel.

Maths

In Maths we will be focussing on the number 9. We will be practising counting up to 9, counting amounts of 9 and finding 9 in our environment.

Can we explore it?

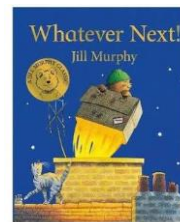

Computing

We will be creating our own space scene on Purple Mash.

Physical development

We are going to be making some junk modelling rockets. We will practice fine motor skills such as grip and control when using tools; manipulation of different materials; hand eye co-ordination when joining materials together.

Literacy

We will be reading different space themes story books such as 'Whatever next' and 'Red rockets and rainbow jelly'.

Montessori

The Dressing Frames primary purpose is to teach children how to dress themselves through mastering different clothing fasteners. This process also tests a child's hand eye coordination and fine motor skills, as they work with each material.
