Understanding of the World

Next week we will be learning about some more woodland creatures. We will be focusing on hedgehogs and foxes and looking at why they are nocturnal animals and what this means.

Expressive Arts and Design

The children will have the opportunity to access topic related activities on the craft shelf.

Maths

Next week we will continue to focus on regrouping the whole and identifying what values are hidden within numbers. The children will be encouraged to see values hidden within numbers using subitising. The children's understanding of equal, more and less will continue to develop and the term 'altogether' will be used to describe the whole.

Why do squirrels hide their nuts?

Literacy

Next week we will be making and writing our Christmas cards.

Personal, Social and Emotional Development

Next week, we will continue rehearsing for the Christmas show on the stage. We will focus on knowing when to say our lines.

Montessori

This week's skill is from Sensorial. The colour boxes teach children to identify and name colours. Box 1 and 2 focus on primary and secondary colours. The purpose of colour box 3 is for children to visually discriminate shades of the same colour from darkest to lightest.

Communication and Language

We will be discussing 'hibernation'. We will be thinking about why woodland animals hibernate during winter. We will learn how animals prepare for hibernation.
