

Nursery News Hedgehog Class

Notice Board:

This newsletter will give you an outline of what we will be doing in nursery next week. There will also be some suggested activities for you to do at home with your child to support their learning.

Just a reminder that the children's lanterns will be on display in St Mary's Church on Saturday (25th).

Now that the weather is getting colder, please ensure your child has gloves, a hat and covered legs (tights or long trousers). Thank you

Friday 1st December is an occasional day so the **school will be closed**.

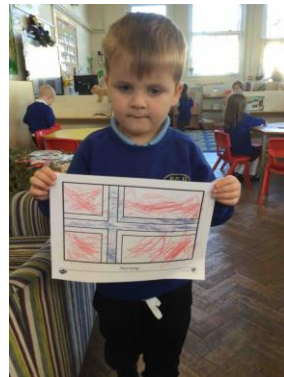

If you have any questions regarding nursery or have anything you want to let me know, feel free to email me:

rabbott@fandb.herts.sch.uk

What we have been up to this week...

This week was geography week and the children learned all about Norway! They also made hedgehog land art in the conservation area.

What we will be doing next week...

Literacy: We will continue to focus on retelling favourite stories and rhyming this week.

Maths: The children will be introduced to basic 2D shapes: circle, square, triangle and rectangle.

Personal, Social and Emotional Development:
We will be discussing how to solve small problems and conflicts independently.

Understanding of the World: We will be talking about the next season being winter and how the weather gets even colder. We will have a matching activity where the children can compare things they do and need in summer vs winter!

Expressive arts and design: We will continue to learn the songs for the Christmas play.

Communication and Language: We will continue to reinforce the vocabulary we have learned this term, including 'woodland', 'hibernation' and 'nocturnal'

Choose a Challenge:

These activities are only suggestions, feel free to do as many or as few as you like (there is no obligation to do any).

Literacy: Encourage your child to point out rhymes when reading stories. Help your child to retell their favourite stories using their toys.

Maths: Point out 2D shapes to your child. Can they name them?

Understanding of the world: Discuss with your child about the weather getting colder and how to keep ourselves warm. What are some fun things you like to do in the winter?
