Understanding of the World

We will be focussing on caterpillars next week. We will learn about the four stages of their lifecycle. We will also learn the main body parts including antennae, head and wings.

Expressive Arts and Design

The children will have the opportunity to access topic related activities on the craft shelf.

Maths

The children will continue to develop their subitising skills in increasingly more complex arrangements. A key focus this week is to use the children's developing understanding of doubles to support their subitising skills

Why do ladybirds have spots?

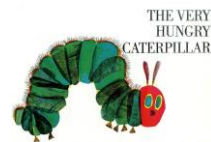

Computing

https://www.purplemash.com/#app/pap/nature/butterfly_lifecycle

Literacy

We will be reading the story of 'The very hungry caterpillar'.

Montessori

This week's skill is from Maths. Seguin board A has three exercises. The first introduces the child to quantities 11-19. The second introduces written symbols, and the third allows the child to put the previous learning into practice by combining quantities and symbols.
